

Create your own ChatBot!

Create your own ChatBot and turn your story to life - armed with an idea of what your bot could ask a user / a story to turn interactive on screen and entertain your fellow friends with!

Attached is a step-by-step tutorial that will talk you through the basics of Scratch and how to respond to user input, follow it carefully and move onto the following challenges whenever you are ready!

Extra Challenges:

- Create your own story, draw out your idea on paper and bring it to life on screen!
- Can you make 2 characters talk to each other?
- Share your adventures with your neighbor!
